

# WHAT GAZA SHOULD BE

## GAZA ABUSED AS A HAMAS WAR MACHINE

## FREE GAZA FROM HAMAS

Hamas, like ISIS, is a terrorist group of radical extremists threatening the free world. They brutally control the Palestinians of Gaza.

Since Israel pulled out of Gaza in 2005, Hamas, according to the Palestinian Authority, have stolen over \$700 million from Gaza's international aid money for social welfare and infrastructure projects, and diverted it instead into building networks of cross-border terror tunnels, stockpiling rockets and firing them at Israeli cities.

Hamas' own charter calls for the annihilation of Israel and all Jews and to refuse peace with its neighbor at all costs. Israel has the responsibility to defend its citizens against attack.

Hamas launched rockets at Israeli cities from Gazan civilian's living rooms, hospitals, schools and mosques, sacrificing their own innocents for PR gains.

They will not stop at this ceasefire. They are already boasting of building new tunnels in preparation for their next war. That is many more millions diverted from Gaza's aid, and the promise of further civilian sacrifice.

The Palestinians deserve better. This pointless cycle of violence must stop. Until Hamas is neutralized Gaza will never be free.
