

**Shalom to our dear Brothers in England,**

As you know, the city of Sderot and the Gaza Envelope are presently under rocket fire from Gaza.

Yesterday evening and last night more than fifty missiles landed in Sderot, one landing a direct hit on a family home. Miraculously, no one was injured.

Presently all the schools are closed and public activities have been put on hold until further notice; Sderot is in a stage of emergency. Unfortunately, this reality is forced upon us every few months with no solution in sight. Those who suffer most are mainly our children who develop complicated symptoms of post trauma (PTSD) stemming from the consistent tension, anxiety and uncertainty that accompany the abnormal way of life that has been ongoing for the past seventeen years. In fact, a great many children and teenagers know no other lifestyle since they were born into this unnatural reality.

We recently began the construction of a new PTSD protected (armored) treatment centre for the general public – but mainly for our children. We need your help and partnership to ensure that we can get it built and equipped as soon as possible.

We know that even though you live thousands of miles away, your hearts are with us and that you are willing to help.

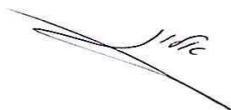

There is much to be done!

Please donate towards the new resilience treatment centre in Sderot.

Help us to continue to stand strong at the frontline of the State of Israel opposite the terror from Gaza.

Yours sincerely,

Alon Davidi, Mayor of Sderot
